WATERTOWN, Mass., Oct. 30, 2018 (GLOBE NEWSWIRE) -- Aileron Therapeutics (NASDAQ: ALRN), the clinical stage leader in the field of stabilized, cell-permeable peptides to treat cancer and other diseases, today announced that the Company will report financial results for its third quarter ended September 30, 2018 on Wednesday, November 7, 2018 after the close of the market.

### About Aileron

Aileron is a clinical-stage biopharmaceutical company advancing a proprietary platform of cell-permeable alpha-helical peptides that address the most important intracellular targets in oncology and other therapeutic areas. The stabilized helical structure of our peptides allows the design of cell-permeable therapeutic agents with large molecular surfaces for optimal target binding properties, resulting in unique drugs like ALRN-6924. Our current focus is to improve the standard of care for patients with solid tumors and hematological malignancies by developing safe and effective therapies that leverage our proprietary peptide platform. ### About ALRN-6924

ALRN-6924 is a first-in-class, stabilized alpha-helical peptide that mimics the p53 tumor suppressor protein to disrupt its interactions with both its endogenous inhibitors, MDMX and MDM2. For p53 wild-type tumors, ALRN-6924 can restore p53-dependent tumor suppression. ALRN-6924 is currently being evaluated in multiple clinical trials for the treatment of solid and hematological cancers, including acute myeloid leukemia (AML), myelodysplastic syndrome (MDS), and peripheral T-cell lymphoma (PTCL). For information about Aileron's clinical trials, please visit [www.clinicaltrials.gov](http://www.clinicaltrials.gov).
